Dear Mayor Gibbon and Council:

On behalf of Parry Sound Area Active Transportation I would like to extend congratulations and appreciation for your action to approve, at your recent Council Meeting, the rebuilding of Rose Point Road to include a 2 metre wide paved shoulder on the west side to accommodate pedestrians and cyclists. Your action will not only improve the safety of Rose Point Road but provide a vital link between the Town of Parry Sound and the Rose Point and Seguin Trail systems. Any improvement in trail systems helps to promote active transportation and the benefits of active/healthy living and helps to make our area a tourist destination for hikers and cyclists.

Thank you for your action in support of active transportation and we stand ready to assist your municipality in any future endeavours in this area.

Sincerely yours,
